

# “How to” Wikipages: Posting Instructions

Purpose: To utilize the wikispaces page to post “How to” information for staff and students at PDCI using the iPads. Each student is encouraged to create a minimum of three pages during the semester.

## Instructions:

1. Create a new page for each “How to” element being posted (ie. iMovie, Explain Everything, Accessibility features, Dropbox...).
2. Keep in mind your purpose and audience when creating your page — to assist students and teachers using the iPad and/or Apps.
3. Design of the page can be simple, but be sure to take advantage of the wikispaces elements that can be added such as:
  - text font (colour, size, layout...);
  - hyper links;
  - widgets (eg. video); and
  - images
4. Ask offers for feedback — take advantage of the posting ability of the pages. Encourage others to help edit and/or add new information to your page.
5. Encourage students and teachers to visit the wikispaces page when they need help using the iPads and/or Apps.

## Due Dates:

Page 1) October 27, 2014  
Page 2) November 10, 2014  
Page 3) November 24, 2014

## Evaluation:

<b>Knowledge/Understanding</b>	<b>R 1 2 3 4</b>
- “how to” wikipedia demonstrates a thorough understanding of the subject being presented	
<b>Thinking/Inquiry</b>	<b>R 1 2 3 4</b>
- “how to” wikipedia reveals logical and critical thinking skills in presentation of information	
<b>Communication</b>	<b>R 1 2 3 4</b>
- “how to” wikipedia effectively communicates the instructions for the audience and purpose	
<b>Application</b>	<b>R 1 2 3 4</b>
- “how to” wikipedia employs the features of wikispaces appropriately
